

# Maths

Daily practise of time tables and number bonds is really important. It will really help your maths when we return to the classroom. Continue to use Times Tables Rock Stars and SumDog everyday.

Pupil Logins for these should be in your child's reading record.

## Corbettmaths primary

Corbett Maths is designed to practise arithmetic and reasoning skills. There are 4 different levels of difficulty. It is recommended that Year 3 children complete the Bronze level, Year 4 Silver, Year 5 Gold and Y6 Platinum, although children can move between levels. Please select the level suitable for your child. Answers are provided on the website.

Five a Day Bronze, Silver, Gold and Platinum

You could 1. print the worksheets 2. read the screen and write answers onto paper or 3. take a screen shot of the page and write on it.

# English

## Daily Reading

15 minutes daily reading to an adult remains very important. Your adult should ask you lots of questions to make sure that you have understood what you have read. Oxford Owl has over 100 e-books for children age 3-11 to read.

## Daily Spelling

Spelling Frame is a free internet activity which is a great way to practise spelling rules. You should aim to complete ONE spelling rule every day. The spellings are organised into groups (Y1, Y2, Y3/4 and Y5/6), but please select the level relevant to your child. Each rule has 5 mini activities: Segment Puzzle, Sorting Segments, Segment Silhouette, Word Search and Type It.

## Daily English

**This unit should take 3 weeks to complete**

Attached is a booklet for you to work through- a complete Talk for Writing unit. The booklet contains a model text, vocabulary tasks and a planning structure for you to write your own version of the text—just the same way that you would in school. I would love to see your versions, again complete on paper or type up your work and share on Seesaw.
